CURE INTERNATIONAL'S KENYA HOSPITAL RECEIVES HEALTH CARE AWARD

Lemoyne, Pa. July 17, 2009: The AIC-CURE International Children's Hospital in Kijabe, Kenya, has received a health care award from the National Hospital Insurance Fund (NHIF), a national health insurance organization.

The NHIF presented the hospital with a Quality in Health Care Award in the category of faith-based health institutions. It was given in appreciation of the hospital's "consistency in seeking to offer quality health care in all aspects of [its] service delivery systems."

AIC-CURE International Children's Hospital has provided life-changing surgeries to more than 22,000 Kenyan children since 1998.

About CURE International

Founded in 1996, CURE International is the largest provider of pediatric specialty surgical care in the developing world, transforming the lives of physically disabled children and their families through medical and spiritual healing. To date, it has performed more than 64,000 surgeries and seen nearly 1,000,000 patients. Visit www.cureinternational.org for more information.
